

• Parameter

SMQT®

Dimensions	41L * 34W * 6.5H (mm)
Connection	NC / NO
Operating distance	20 ± 5 (mm)
Maximum durability	≤100VDC
Load current	≤500mA
Working Power	≤10W
Housing Material	ABS fireproof material shape
Colour	Brown / White
Scope	Non-ferrous door or window
product weight	14g

• Introduction

SMQT®

The magnetic contact sensor with wired and wireless mode. This model is a wired magnetic door contact switch used in alarm security. The back has adhesive tape to provide easy installation in the door or window. Ideal for security in offices, homes, shops, and entrances. When someone illegally opens a door or window, it immediately sends an alarm signal.

the control panel receives the alarm signal immediately, the 120-decibel alarm sound.

The door magnetic contact sensor is used for door security system. The automatic door sensor is a wired alarm door sensor.
