

● Parameter

SMQT

Dimensões	65 * 30 * 17 (mm)
Tensão operacional	3.7V / 200mAh
O tempo de carga	> 12h
Tempo de operação da bateria em carga máxima	≤ 1 ano
Gap = Vão	40 ± 5mm
Frequência de rádio	315MHZ / 433MHZ / 868MHZ
Distância de transmissão	≤100m (ao ar livre)

● Introduction

SMQT

Material de revestimento retardante de fogo, segurança e estabilidade.

Desempenho estável e estável, verde.

Capacidade de transmissão flexível, opções de estabilidade de frequência.

O sensor de contato da porta sem fio trava com frequência de alarme de 433Mhz ou 868Mhz, adequado para uso em portas ou janelas.

Wireless Magnetic Contact Sensor

1 Emergency Button

2 The magnetic flip-flop

3 LED Light

The unique door/window magnetic contact with the emergency button in security industry . make sure more safety for user;
 · Induce the door or window open or close and gap in 10mm, the wireless transmission up to 80 meter.

Stable, stable performance, green.
 Flexible transmission capacity, frequency stability options.

● Features

SMQT

Multifunctional, the new model, patented design.

Tradition, stability, durability
 Imported touch reed switch
 Fire-retardant casing material, security and stability.
 Comes with emergency button, an accessory, a variety of uses.

Built-in battery, used or release anytime.

Smart power-saving built-in battery design, the sensor also can work at home even though power cut out, comes with high-energy battery, sustainable use of uninterruptible power supply

Reed , A special magnetic switch

Imports Reed touch than the general mechanical switch of simple structure, small size, high speed, long working life, and strong anti-shock load, high operating reliability.

● Packing list

SMQT

Qtde	200 / caixa
Especificações de embalagem	40 * 30 * 20 (cm)
Peso da embalagem	10Kg
