

● Parameter

SMQT

Dimensiones	65 * 30 * 17 (mm)
Tensión de funcionamiento	3.7V / 200mAh
Tiempo de carga	> 12h
Tiempo de funcionamiento de la batería a plena carga.	≤ 1 año
brecha	40 ± 5 mm
Frecuencia de radio	315MHZ / 433MHZ / 868MHZ
Distancia de transmisión	≤100m (al aire libre)

● Introduction

SMQT

Material de la carcasa ignífugo, seguridad y estabilidad.

Estable, rendimiento estable, verde.

Capacidad de transmisión flexible, opciones de estabilidad de frecuencia.

El bloqueo inalámbrico del sensor de contacto de la puerta con una frecuencia de alarma de 433Mhz u 868Mhz, adecuado para puertas o ventanas de madera.

Wireless Magnetic Contact Sensor

1 Emergency Button

2 The magnetic flip-flop

3 LED Light

The unique door/window magnetic contact with the emergency button in security industry . make sure more safety for user;
 · Induce the door or window open or close and gap in 10mm, the wireless transmission up to 80 meter.

Stable, stable performance, green.
 Flexible transmission capacity, frequency stability options.

● Features

SMQT

Multifunctional, the new model, patented design.

Tradition, stability, durability
 Imported touch reed switch
 Fire-retardant casing material, security and stability.
 Comes with emergency button, an accessory, a variety of uses.

Built-in battery, used or release anytime.

Smart power-saving built-in battery design,the sensor also can work at home even tough power cut out, comes with high-energy battery, sustainable use of uninterruptible power supply

Reed , A special magnetic switch

Imports Reed touch than the general mechanical switch of simple structure, small size, high speed, long working life, and strong anti-shock load, high operating reliability.

● Packing list

SMQT

Cantidad	200 / caja
Especificaciones de embalaje	40 * 30 * 20 (cm)
Peso del embalaje	10 kg
