

## ● Parameter

**SMQT**

Dimensioni	65 * 30 * 17 (mm)
Tensione operativa	3,7 V / 200 mAh
Tempo di carica	> 12h
Tempo di funzionamento della batteria a pieno carico	≤ 1 anno
divario	40 ± 5 mm
Frequenza radio	315 MHZ / 433 MHZ / 868 MHZ
Distanza di trasmissione	≤100m (all'aperto)

## ● Introduction

**SMQT**

Materiale di rivestimento ignifugo, sicurezza e stabilità.

Prestazioni stabili, stabili, verdi.

Capacità di trasmissione flessibile, opzioni di stabilità della frequenza.

Il sensore di contatto senza fili per porta si blocca con frequenza di allarme 433 Mhz o 868 Mhz, adatto per porte o finestre chiuse.

## Wireless Magnetic Contact Sensor

The unique door/window magnetic contact with the emergency button in security industry . make sure more safety for user;  
 · Induce the door or window open or close and gap in 10mm, the wireless transmission up to 80 meter.

Stable, stable performance, green.  
 Flexible transmission capacity, frequency stability options.

## ● Features

**SMQT**

**Multifunctional, the new model, patented design.**

Tradition, stability, durability  
 Imported touch reed switch  
 Fire-retardant casing material, security and stability.  
 Comes with emergency button, an accessory, a variety of uses.

**Built-in battery, used or release anytime.**

Smart power-saving built-in battery design, the sensor also can work at home even though power cut out, comes with high-energy battery, sustainable use of uninterruptible power supply

## Reed , A special magnetic switch

Imports Reed touch than the general mechanical switch of simple structure, small size, high speed, long working life, and strong anti-shock load, high operating reliability.

### ● Packing list

**SMQT**

Quantità	200 / scatola
Specifiche dell'imballaggio	40 * 30 * 20 (cm)
Peso dell'imballaggio	10Kg
