

## ● Parameter

SMQT

Ang bilang ng mga beam	2/4/6/8/10
Distansya (panloob)	5m / 10m / 20m / 30m / 40m / 60m
Taas na detektor	37/72/125/167 / 209cm
Nagtatrabaho kasalukuyang	30mA ~ 80mA
Boltahe ng Operating	DC12V ~ DC18V
Oras ng feedback	<1.5ass
Relay contact	3A, AC120V / DC24V
Ayusin ang anggulo	180° ± 90°
Temperatura ng nakapaligid	-35 °C ~ 55 °C

## ● Introduction

SMQT

Mababang-dalas na infrared na paglabas: mga gamit sa sambahayan (Remote Control System) walang pagkagambala;

Ang matalinong light intensity detection: mas mababang paggamit ng kuryente, bawasan ang mga maling positibo;

Ang iba't ibang pag-install: Ang ibabaw at flush na pag-mount ay maaaring, nang walang tumpak na pagkakahanay;

Pagbaril sa cross-infrared: ganap na maiwasan ang pagkagambala sa sikat ng araw (natatanging teknolohiya);

matikas na hitsura: ang hangarin ng perpektong kumbinasyon ng modernong palamuti sa bahay.

Photoelectric Infrared Beams Barrier sensor suit na ginamit gamit ang window at alarm alarm.

Ang mga infrang na fences (tinatawag ding "infrared railings") ay isang uri ng aktibong pagbaril sa infrared, gamit ang multi-beam infrared light sa radio transmitter sa receiver sa "low-frequency transmitter, Time Division Detection" mode na nagpapalabas ng infrared light, sa sandaling ang tao o pagharang sa anumang katabi ng dalawa o higit pang mga light beam na inilabas ng transmitter ay lumampas sa 30ms, ang signal ng alarma ng receiver output ay may mga maliliit na hayop o maliliit na bagay na malayo sa kung saan ang isang sunbeam, ang alarma ay hindi maglalabas ng signal ng alarma.

● Installations

SMOT

Using CPU micro processing intelligent control, intelligent distinction through the size of the object, there is an illegal intruder when the fence to trigger an alarm. When the smaller cats, dogs, birds and other small animals through the fence , the detector will not trigger the alarm, does not affect people's trouble to switch windows.

## ● Features

**SMOT**

**With tamper resistant, anti interference, high reliability**

With anti demolition, anti interference function, when there is an intruder to remove or damage, the immediate alarm model, the

Tamper switch, when the invaders destroyed or disassembled, tamper switch will trigger the alarm immediately bounce.

**Waterproof moisture-proof function, can adapt to bad weather**

Because this product is used in indoor and outdoor, the use of universal is relatively strong. The products according to the scientific design, with rain proof structure for installation of indoor and outdoor machine of supermarket zone, waterproof, dust-proof, wind and rain, wind and rain does not matter, can adapt to all kinds of bad environment and weather.

**Aluminum alloy material design: beautiful and reliable structure**

Main body outer shell is made of high quality aluminum alloy material, and the surface of the polishing treatment, bones and durable; the import filter to visible light good filtering function.

**Installation and debugging is convenient, 3 when the warning distance can be adjusted**

After the installation of the fixed infrared beam of the launch and reception of vision can be achieved 360 degrees of rotation, three block adjustable warning distance, convenient and sensitive.

far ( 15-30m )  
in ( 5-15m )  
near( 0-5m )

3 warning distance adjustable map

The bracket adopts the latest sliding cover to be designed, and the installation is more convenient. Disassembly more secure.

**● Packing list**

Wireless infrared beam sensor

Mounting screw
