

16 wired & 30 wireless zones Metal box PSTN GSM TCP/IP Alarm panel

Parameter	
Product name:	16 wired & 30 wireless zones Metal box PSTN GSM TCP/IP Alarm panel
Model:	EB-870
box case dimension:	270*260*80(mm)
Power supply:	AC 220V/110V(optional)
Output votage:	DC 12V~15V
Static current:	≤150mA
Alarm current:	≤1000mA,12V
Feature:	PTSN□GSM□GPRS□TCP/IP communication networks(optional)
Zones:	8wired zones(connect resistance to expand to 16wired zones)&30 Wireless zones
Wireless frequency:	433MHz (1527 chip code)
Wireless emission distance:	≤100m(open air)
Working temperature:	-10°C~+55°C
Backup battery:	12V 7ah accumulator(optional)
Color:	White
Weight:	2.8kg
OEM:	Welcome OEM and sample test

This Intelligent Networking Voice Anti-theft Alarm Host supports 8 wired and 30 wireless defense zones. It adopts advanced 32-bit ARM microprocessor. This guarantees the high integration, high reliability and a variety of flexible interface. It can store 6 groups of alarm telephone number, and at the same time two groups center number (e.g., the public security bureau 110 turning center). It can upload alarm information through

PTSN **GSM** **GPRS** **TCP/IP** communication networks.

**What features of 2018 SMQT 16 wired & 30 wireless zones Metal box
PSTN GSM TCP/IP Alarm panel EB-870?**

1. **GSM+PSTN Voice** alarm panel

2. **8 wired zones & 30 wireless zones**

3. Wireless frequency **433Mhz**

4. **6 groups user alarm number & 2 groups alarm center number.**

5. Power supply **AC 220V/110V** optional

6. **LCD keypad** easy to programming and setting system

7. Store **1500 items event record** capacity

8. **2 years warranty** , welcome OEM

1. **LCD keyboard** operation and menu programming instead of the digital code and tedious manual

2. High-speed digital communications, compatible with the **CID communication protocol**.

3. To prevent the crash, the host has watchdog function.

4. Intelligent **voice prompt**, build-in voice module, can make voice alarm.

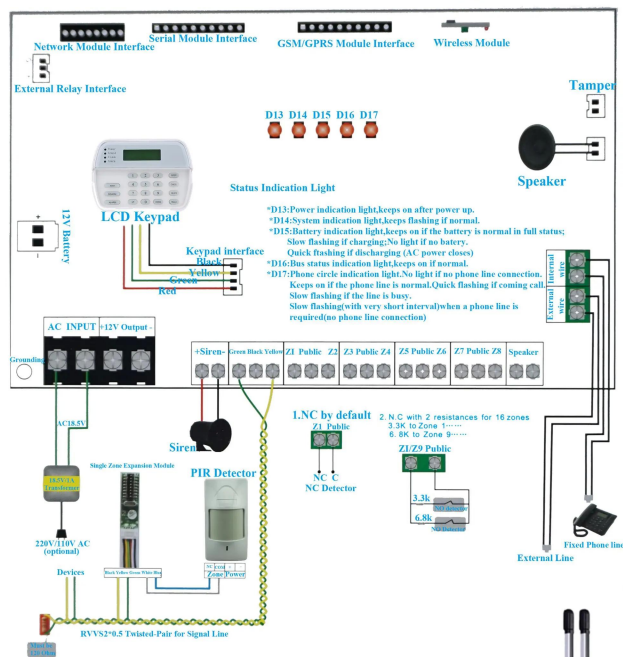

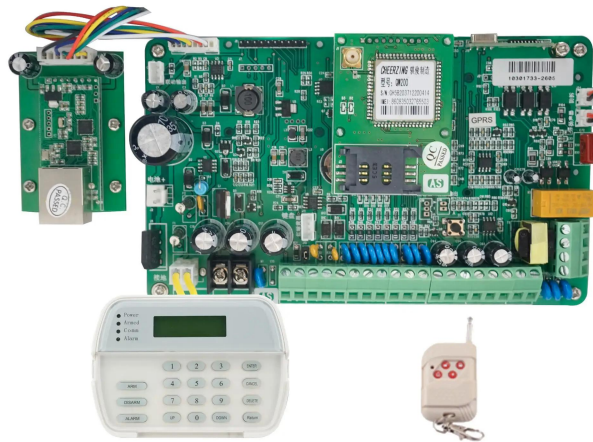

5. Can carry out various programming of the system settings, such as alarm mode, the types

- of protection zones, remote control, alarm, telephone number, telephone line detection, etc.
6. Wired and wireless defense zones compatible
 7. 1 installer **programming password** which is 6 digits and can be changed by himself. 1 main user password, 9 groups sub-user password which are 6 digits and can be set according to their own requirement. This can enhance security.
 8. Support fast operation by keypad, easy and convenient.
 9. Can set six groups of alarm telephone number (either landline or mobile phone number) and 2 groups alarm center telephone number, 2 groups of special number for arm and disarm. So the upload is free of charge. And when alert is activated, it will do dial the numbers circularly.
 10. **7 types of arm**: away arm, at home arm, delay arm, remote arm, fast force arm, timing arm, remote controller arm.
 11. **4 types of disarm**: disarm by keypad password, telephone remote disarm, timing disarm, remote controller disarm.
 12. **7 types of defense zone**: Ordinary zone, delay zone, 24-hour zone, internal zone, doorbell zone, fire alarm zone, emergency zone, medical treatment zone.
 13. Customizable alarm time delay and time of bell.
 14. **"Black Box"** function, can store 1500 event record. Can query the zone alarm information, arm and disarm information and the battery voltage.
 15. Can arm by remote controller or telephone. And if the defense zone is triggered, it will activate the automatic bypass and broadcast the corresponding voice information.
 16. Telephone line fault detection function. If the telephone line is cut or short circuit, the system will alarm.
 17. The telephone has priority to answer the alarm call. Even if the telephone is busy, it will get through the alarm call to make sure alarm report is upload successfully.
 18. The host has a charging circuit by DC12V sealed lead-acid battery to guarantee the working even if it is power failure.
 19. When the battery can't charge and discharge and cause low voltage, it will power-off to avoid damage to the battery.

WHAT IS THE EB-870 LOOK LIKE?

HOW TO USE IT?

Perimeter protection beam detector

Fire&Intruding detector

Suitable for Home ,Office, Factory park etc,security alarming project.

The alarm host is suitable for families, residential quarters, villas, commercial auxiliary networking, the financial system, authority institutions, industrial parks, schools, libraries, hospitals, and many other areas. It is an ideal choice because it is easy to install, with LCD display keypad, voice prompt and menu operation.

HOW TO COOPERATION?

Trade terms:	EXW
Payment terms:	T/T, Western union, Paypal etc
Delivery time:	Normal order within 7 days, bulk order 10-15days
Packing:	Neutral paper box and paper carton
Shipping:	Express company or by sea, by air or appointed by buyer

FAQ

Q:Can I have a sample order?

A:Yes, we are willing to offer trial sample order to you for quality test. Mixed samples are acceptable.

Q:What is the lead time?

A:Sample needs 1-3 working days, mass production time needs 10-15 working days.

Q:What is your MOQ?

A:No MOQ limit, the more quantity the more discounts.

Q:How do you ship the goods and how long does it take arrive?

A:The sample will be sent to you by optional shipping service (couriers, air, and sea),or appointed by buyer,7-15 days.

Q:How will we proceed the order if I have logo to print?

A:Firstly, we will prepare artwork for visual confirmation. If the color and position are right, we would make sampling firstly from silk print factory and take picture for your second confirmation before mass production.
