

Product number	EA-82K (Optional black and white)
Operating Voltage	DC12V ± DC3V
Power consumption	<2W
Card Type	125KHZ ID
Reading distance	60mm
Store records	10000
registered user	10000
communication method	RS485
Transmission rate	9600bps (N, 8,1)
Storage memory	4MbitsFLASHMemory
Dimensions	96L * 96W * 22H (mm)
Housing Material	PC
Operating temperature	-30 °C ~ + 65 °C
Open the door	Credit card/Card + password/UID + password/Public Password

The rfid access control system with the TCP/IP ,RS485 port connet the PC work with the software.It is the rfid access control keypad waterproof standalone reader with unique design.

- * Unique Designs (**Appearance patent**), The shell with a matte treatment, feel comfortable.
- * uses laser engraving technology, wear on the digital keyboard, prolonged use will not fall; energy-saving keyboard having breathingbackgroundLight, Takeout doorbell button, even more stylish.
- * selection of imported PC material, impact resistance, heat resistance, corrosion resistance is strong.
- * have advanced FLASH storage technology, even if power is turned off to save the data for 10 years.
- * has a group session control function 100, the user can open the door to the time and manner regulation. Available on the machine settings (**When offline**) May be provided in the software.
- * can register the user card on the machine by administrator card (**When offline**) To be registered by the user software.
