

| Infrared Motion Detector |                       |
|--------------------------|-----------------------|
| Model                    | EB-181                |
| Size                     | 89 × 52.5 × 38.5 (mm) |
| Voltage                  | 9 ~ 16V DC            |
| Current                  | 18mA (at 12V DC)      |
| Output                   | NO NC DC28V 100mA     |
| Detection Range          | 1.7 ~ 2.5m            |
| Response Time            | 2.2 seconds           |
| Field of View            | 12m                   |
| Temperature Range        | 110 °                 |
| Operating Temperature    | -10 °C ~ 50 °C        |
| Storage Temperature      | -25 °C ~ 65 °C        |
| Weight                   | 0.1kg                 |

EB-181 Infrared Motion Detector is a high-quality, reliable, and easy-to-install device. It is designed to detect motion within a specified range and provide a clear signal to the alarm system. The detector is made of high-quality materials and is resistant to dust and moisture. It is suitable for use in both indoor and outdoor environments. The detector is easy to install and can be used in a variety of applications. It is a reliable and effective way to protect your property from theft and vandalism.

Compatible with alarm panel

EB-181?

1.Wired PIR motion detector

2.NO/NC Alarm output

3.12m detecting distance

4.Suitable for wired alarm system

5.2 years warranty , welcome OEM
