## Wireless Magnetic Contact Sensor

The unique door/window magnetic contact with the emergency button in security industry . make sure more safety for user;  
 • Induce the door or window open or close and gap in 10mm, the wireless transmission up to 80 meter.

Stable, stable performance, green.  
 Flexible transmission capacity, frequency stability options.

## ● Features

**SMQT**

**Multifunctional, the new model, patented design.**

Tradition, stability, durability  
 Imported touch reed switch  
 Fire-retardant casing material, security and stability.  
 Comes with emergency button, an accessory, a variety of uses.

**Built-in battery, used or release anytime.**

Smart power-saving built-in battery design,the sensor also can work at home even tough power cut out, comes with high-energy battery, sustainable use of uninterruptible power supply

## Reed , A special magnetic switch

Imports Reed touch than the general mechanical switch of simple structure, small size, high speed, long working life, and strong anti-shock load, high operating reliability.
